**Energy Efficient**
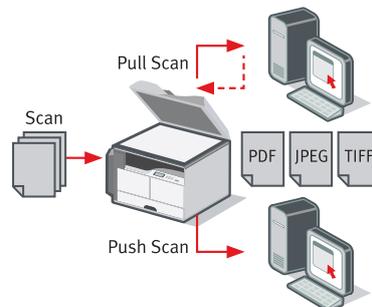

More Performance Value, Less Investment Outlay

The new imageRUNNER 2202N comes packed with essential features needed for today's business efficiency. Improve productivity with an array of features such as network connectivity, Remote Scan and Mobile Print and also, track your device usage to avoid unnecessary costs. Canon's energy saving technology ensures that you keep a low environmental footprint and minimize your energy costs.

The compact size of the imageRUNNER 2202N makes it the perfect choice for offices where space is limited. Eliminate extra costs with the imageRUNNER 2202N by consolidating printing, copying and scanning functions into just one device.

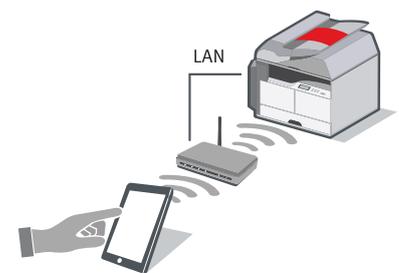

NETWORK CONNECTIVITY, IMPROVED WORKFLOW

The imageRUNNER 2202N also comes with built-in network interface allowing multiple users connected to the same network to share the device for print and scan functions. Scanning is simpler than ever before with Push Scan function where you can scan documents directly from the device and retrieve the files at your computer.

CONVENIENT SCANNING, MULTIPLE FILE FORMATS

Streamline your document workflow using the MF Toolbox application. Scan, store and share your documents (monochrome or color) in various file formats, including Compact PDF, which minimize your network load with its smaller file size. Or choose to save your documents in Searchable PDF format and effortlessly perform word searches on your document content.

GREATER MOBILITY, BOOST CONVENIENCE

The network-ready imageRUNNER 2202N offers you the convenience to integrate wireless printing on your iOS or Android mobile devices, via the complimentary Canon Mobile Print App and print on the go. The smart app allows you to easily print a variety of file types with various print options to suit your needs, such as varying paper sizes or multiple copies.

IMPROVED CONTROL, BETTER RESOURCE MANAGEMENT

Track your device usage with Department ID Management where login is needed to access the job functions. With this feature, you can predetermine different limits for individual departments. Device usage can be better managed through understanding copy and print outputs to better control your overheads.

ID CARD COPY, IMAGE COMBINATION

Improve efficiency with the ID Card Copy function that scans both sides of a card and have it printed out on a single page without the need to manually reposition the card or the paper. Save paper usage with the Image Combination function. Combine multiple page (up to 4 pages) documents into one single page.

HIGH PERFORMANCE, HIGH PRODUCTIVITY

Reduce paper usage and filing space with the optional duplex unit. Additionally, to make duplex copying and scanning a breeze, you can opt for the Duplex Auto Document Feeder. Take your business productivity up a notch and mantain uptime with the optional 250-sheet paper cassette without the need to load paper as often.

QUICK WARM-UP TIME, LOW ENERGY CONSUMPTION

With the On-Demand fixing technology, the imageRUNNER 2202N consumes minimal power when not in use. When needed, it can be ready in less than 8 seconds. Coupled with a low-melting point in toner, the new model boasts low power consumption and low TEC value. Maximize the performance of your device with Canon's genuine toner and long life drum technology while producing high quality printouts.
